FDA
Washington, D. C.

To whom it may concern,

I am in favor of continued labeling of irradiated food and other substances. I also favor the labeling of genetically engineered foods. I feel that as a consumer I have the right to be as informed as possible about the foods that I am eating and feeding to my family. I want the right to make informed choices about what I purchase. The FDA needs to be aware of how the public feels about these processes.

Thank you for your consideration in this matter.

Sincerely yours,

Linda Cloud
